Scan QR code with Paytm App to login
Paytm App should be logged with same mobile number, which you use for Merchant Dashboard

STEPS TO SCAN QR CODE

1. Open Paytm App
2. Tap Scan option available at the bottom
3. Point Paytm Scan at QR Code to login

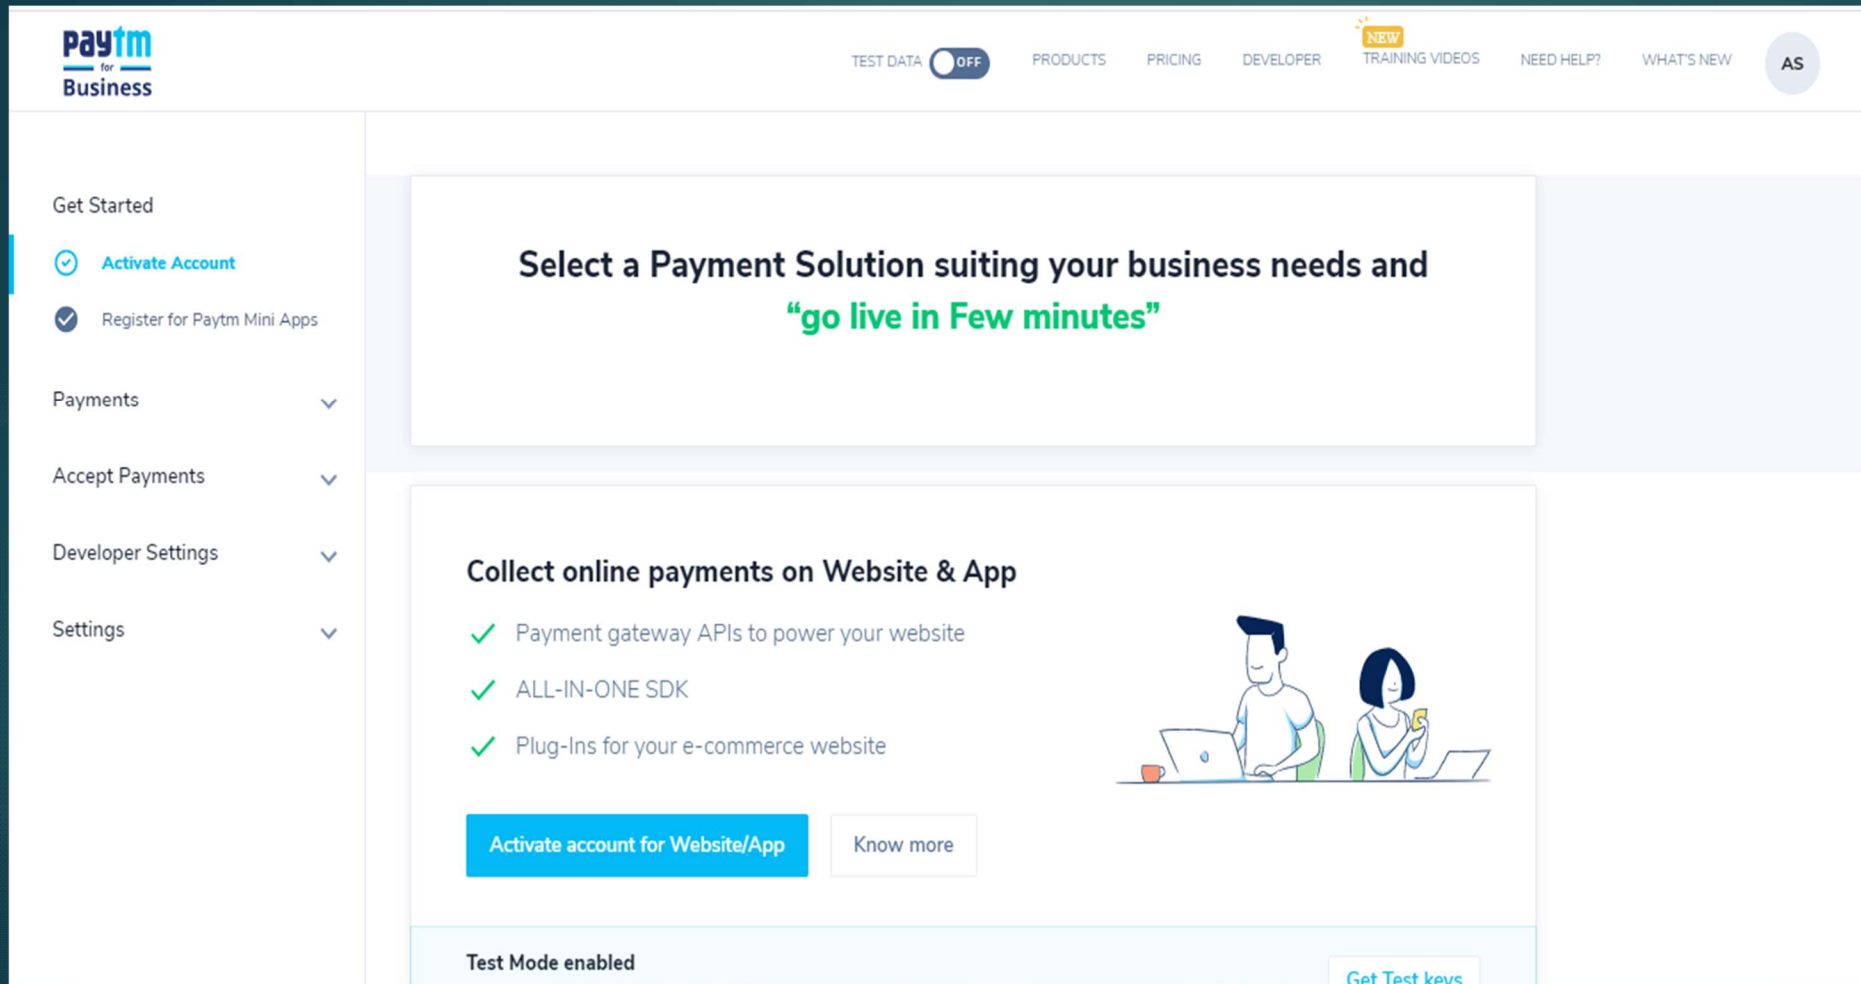

By signing in, you agree to our [privacy policy](#) and [terms of use](#).

OR Login through Mobile no. / Email ID

**Sign-in to your
Paytm dashboard**

Activate Your Account to receive payments.

The screenshot displays the Paytm Business dashboard. The top navigation bar includes the Paytm Business logo, a 'TEST DATA' toggle set to 'OFF', and links for 'PRODUCTS', 'PRICING', 'DEVELOPER', 'NEW TRAINING VIDEOS', 'NEED HELP?', 'WHAT'S NEW', and a user profile icon labeled 'AS'. The left sidebar lists navigation options: 'Get Started' (with 'Activate Account' highlighted), 'Register for Paytm Mini Apps', 'Payments', 'Accept Payments', 'Developer Settings', and 'Settings'. The main content area features a large box with the text 'Select a Payment Solution suiting your business needs and "go live in Few minutes"'. Below this, a section titled 'Collect online payments on Website & App' lists three benefits: 'Payment gateway APIs to power your website', 'ALL-IN-ONE SDK', and 'Plug-Ins for your e-commerce website'. An illustration of a man and a woman working on laptops is shown to the right. At the bottom of this section are two buttons: 'Activate account for Website/App' and 'Know more'. A footer bar at the bottom indicates 'Test Mode enabled' and provides a 'Get Test keys' link.

Click on **Activate account for Website/App** and follow the steps for activating the account.

Generate API Keys

The screenshot shows the Paytm Business Developer Settings page. The left sidebar contains a navigation menu with the following items: Get Started, Activate Account (checked), Payments, Accept Payments, Developer Settings (selected), API Keys (highlighted), API Documentation, Checkout Customization, JS Checkout, and Settings. The main content area is titled 'Test mode' with a sub-header 'Generate your Unique keys'. It explains that these keys are unique credentials issued to every merchant and advises keeping the merchant key on the server-side. A 'Show more' link is provided. Below this, there are two tabs: 'Test API Details' and 'Production API Details' (selected). The 'Production API Details' tab displays a message: 'Please activate your account to view your Production API Keys'. At the bottom, there are two links: 'Testing Documentation' and 'Developer Integration Guide'. The top navigation bar includes links for TEST DATA (ON), PRODUCTS, PRICING, DEVELOPER, TRAINING VIDEOS (NEW), WHAT'S NEW, NEED HELP?, and a user profile icon labeled 'AS'. An 'Activate account' button is located in the top right corner of the main content area.

Generate your Unique keys
These keys are unique credentials issued to every merchant. It's advisable to keep the merchant key on the server-side and should not be shared with anyone.
